GUEST SPEAKER RICHARD GLOVER

The Aussie family is in crisis. Well, not all of them. There are a thousand bleak books about Australian families - rent asunder by divorce, drugs, children in hoodies and the sheer horror of being alive. This book is not one of them. For once, Australian family life is being celebrated. Why Men Are Necessary

and More News From Nowhere is a hilarious — and optimistic — book about Australian family life. It's about the way most of us live — and the wild comedy of being part of a healthy, loving, back-talking, buoyant family.
